POMONA FIELD DAY.

LARGE ASSEMBLY OF PATRONS AT ALLEN CAMP GROUNDS.

Hon. B. M. Fernald of Poland Renders Stirring Address to Grange and Hon. M. L. Merrill of St. Albans Talks the Kind of Politics They All Wished to Hear.

The field meeting of North Franklin Pomona Grange at the Allen Camp grounds in Strong was attended by patrons of husbandry from many towns in Franklin county. The Sandy River and Franklin & Megantic railroads sold cut rate tickets and ran special trains for those who wanted to attend. A moderate sized crowd patronized the railroads and a great many more rode into town by team, making a gathering of several hundred patrons and their friends.

The exercises of the day began at about eleven o'clock with music from a volunteer choir.

Master Fred B. Morton spoke the following words of welcome: Brothers, Sisters and Friends:

For some time Grangers prominent in the order have been agitating the question of a Field Day meeting. So unanimous became the idea that this meeting was appointed, notice given and an invitation given to Grangers and friends to assemble at this time and place.

The result is the meeting together of the representatives of that noble calling agriculture here in the good town of Strong and upon these beautiful grounds made historic from having been named for that Christian gentleman and friend of the farmer, Camp Meeting John Allen.

Although the early part of the season was cold and backward and for a time agricultural matters looked dubious, yet in God's own time the midsummer rains and copious showers awoke old earth to energetic action and our fields, meadows and orchards show evidence that we have not planted and sown in vain.

Fellow Grangers and friends, we have much to be thankful for. The Grange is the one lever that is lifting the farmer out of the mistakes of the past and placing him in the front rank in the onward march of civilization.

Formerly we were considered the mudsills of society; but with organization and education came confidence and aggressive power. So wide has our influence extended that the Order has become an important factor in all that pertains to the progress of our common country.

This condition of things has been brought about by the meeting together of the farmers, organization and the high degree of intelligence which they have gained through the work of the Order.

We are here today to continue this agricultural education. In behalf of the North Franklin Pomona Grange I greet you one and all. We have distinguished speakers from outside and inside the country. Let us all do our part and make this Field day one long to be remembered.

Worthy Master Fred B. Morton of Avon introduced the first speaker, Hon. M. L. Merrill of St. Albans, as follows: "Mr. Merrill has served in the house of representatives and state senate, is at present county commissioner of Somerset county and in his work on the legislative committee of the Grange he has become thoroughly familiar with the inside workings of the state government and the Grange." Mr. Merrill announced that he wanted to talk politics. He talked politics, not partisan politics but the kind his audience wanted to hear; about the management of state affairs, wild land, taxes and the like. All property should be assessed equally with reference to its real value. Yet we find that there is about double the real value in property in this state as the property is assessed for half of the property in Maine is taxed to carry the burden of the whole. Is that equality on justice? Is that what our constitution stands for? We are met in our battle for the right by the cohesive power of common plunder. All men are selfish. Men don't tumble over each other to pay more tax. We should be able to fix things so they will

be more equal. Our order has gained during the administration of the present master, from 20,000 to 60,000 members. The gain in membership is nothing compared with the gain in influence. The legislature now has a lot of respect when your petitions arrive there.

State expenses have doubled in a dozen years or so. Nothing gives better returns than taxes but that is no reason why anybody should step in and graft a large proportion of the public funds.

I believe in the highest school system and I want to be taxed for it, but it is not right that I should pay more for this purpose than my neighbor does. I believe that my neighbor should pay on the same system of taxation whether he owns cultivated farms or wild lands.

We succeeded partially this year in getting what we wanted. Your legislative committee would have been penniless had not you been behind the move. The declaration for equal taxation in both party platforms at the last election was not by accident. The patrons got strong enough to force it in.

About moving the state capital. I was afraid that the senate and house were ready to voteto move it. Then the Kennebec county people woke up. If that was done the state would be so far in debt that they would never get out.

and as I am a little lame I'll start now." These Grange Field meetings are not primarily for the members, they are to give the people an idea of our work, what we are doing, have done, and propose to do in the future. If the patrons had no other claim upon the people, the improved social conditions it has brought about have given 1,000 times as much as it has cost. There is nothing better that a young man or a young woman can do than join the grange.

What does the Grange stand for, what does it amount to? I will name accomplishments of the Grange.

In Minnesota the question of regulation of transportation rates by the state finally went to the United States courts. They ruled that the company are public servants and the government has a right to control their rates. These cases were known as the Grange cases.

Grange first took up the matter of rural mail delivery and persisted until finally they got \$10,000 from the government as an experiment. Now we have 27 millions of dollars expended in this way every year. President Roosevelt has said that this is the most marvellous success of the age. This was purely Grange measure.

The Grange intend to ask Congress for the law to give us the parcel post up to 10 pounds for 25 cents. We are

Fernald of Poland. Mr. Fernald extended greetings to the people of Franklin county, saying that it is especially pleasant to hold such gatherings at this season of the year when nature is at her ripest and everything is grand.

To succeed is the duty of all and possible to all who will pay the prize. It is not necessary in order to be a success for a man to hold an office within the gift of his fellow citizens. The price that all must pay who succeed, is economy, sobriety, industry and right living. It makes no difference what your business is; the farmer, the blacksmith, the builder, the preacher, the judge, there are successes in all callings and that success is in reach of all.

I don't know of a county in this state of great men that leads Franklin county in the quality of her sturdy manhood. I know many men in other states that have gone from Maine and from Franklin county and there isn't a county in the state that has a better record in furnishing successful men than Franklin, and you have the sturdy successful kind of men at home in this county now. I know your men who have been in the legislature and I have known them to be able, honest, fearless, always doing their duty as they see it.

The sun rises early in this far easterly state of Maine and when the worms are out the boys catch them. Our forests furnish pulp from which an enormous amount of paper is made. We have high mountains and between those mountains we have fertile land; our cereals are of the best quality in the world, so that our sweet corn brings the highest price in the market.

We all have a desire for the highest morals for our people and we believe in economical management of the affairs of the state. Every man should have his just due and every man should pay his just tax. We have one of the best states in the Union. Liberty is my religion; at its altar I worship and will worship.

At the close of Mr. Fernald's remarks there was music by the choir, followed by reading of a poem by Miss Mabel Smith that was written by Mr. Frank Worthley.

Obituary.

JOHN R. VOTER.

John R. Voter died at his home in Laurel, Neb., at eight o'clock Friday evening, July 18, after an illness of a little over three weeks.

John Reed Voter was born at Phillips, Franklin county, Maine, October 8, 1832. He was educated in the common schools of Franklin county and at Farmington academy, Farmington, Maine, and followed the profession of teaching almost continuously for twenty years, beginning in the common schools at the age of twenty and continuing until compelled to stop on account of ill-health.

September 20, 1860, at Salem, Maine, Mr. Voter was married to Augusta Patterson who, with three sons and one daughter, survives him. The sons are: Frank P. Voter of Laurel, Harry M. and Nathan B. Voter of Bowden, N. D., all of whom were present at the funeral. The daughter, Mrs. Mary L. Rowan, resides at San Diego, California. Two other daughters, Alice and Mattie B., died in infancy.

Mr. Voter lived at West Farmington, Me., until 1880, and October 20, of that year removed to Springdale, Ohio, where he remained until the spring of 1881, when with his family he came to Lyons, Neb., where he resided until December, 1897, when he removed to Canon City, Colo. June 1, 1905, Mr. and Mrs. Voter came to Laurel to spend their declining years near their sons. While at Lyons Mr. Voter farmed and in Colorado raised fruit.

The funeral occurred Sunday from the M. E. Church, the regular hour for morning service, interment being made in the Laurel cemetery. The pastor, Rev. S. A. Drais, paid fitting tribute to the saintly life of the deceased, who had been a very devoted member of that organization. One said of him: "His life was beautiful." He talked much in those days of "going home," his pastor said, and was ready and waiting for the summons. The influence of such a life cannot be meas-

ured. Truly he has gone "home." Would that we might all emulate his example and be ready, when it comes our turn to experience the change called death.

To his wife of his youth, who has endeared herself to all who have made her acquaintance during her comparatively short residence in Laurel, the sympathy of all is extended; likewise to all the other members of the family, called upon to mourn the departure of one whom it was a delight to honor.

Mr. and Mrs. Wm. Safford went to Lexington last week.

Mrs. J. P. Haynes, who has been visiting her husband in town, has returned to her home in Kingfield.

The first horse trot of the season was a grand success. The day started off with a ball game at 9.30 at the Ball park. The West Rangeley team could not play so the Flagstaff team strengthened by Blanchard, ex-captain of Medford Height team and captain of last year's Stratton team, and "Back Slider" Phillips of this year's Stratton team was in the points for them. The game was good for five innings, then it was a walk over for the boys in green. The Strattons fought all the way through but everything was against them and with their crippled team it was simply a slaughter.

In the afternoon the trotting park was the scene of some good racing, especially in the 3-minute class. Following is the list of entries and the scores:

3 minute class.		5 5 dr
Babe,	Cliff Wing, Flagstaff.	3 4 4 4 4
Dick,	Ralph Wing, Flagstaff.	2 1 2 1 1
Colonel West,	Hal Wing, Flagstaff.	4 3 3 2 2

Time 2.42, 2.41 1-2, 2.43.
The judges were A. G. Eustis, Strong; Ed Voter, Kingfield; C. H. Green, Skowhegan; John P. Durrell, Stratton; starter. A grand ball concluded the day's program, where about 50 couples enjoyed themselves to the strains of Jones orchestra of four pieces.

HON. B. M. FERNALD, SOUTH POLAND, ME.

I can not prove it, but I believe it would put us in absolute subjugation to the railroad interests of the state. Only four of the Granges petitioned in favor of moving the capital down in the corner of the state where the big lobby resides.

Initiative and referendum. The grange stood for it and that was what settled the question. By all means vote on this matter, no matter how but vote.

The questions between capital and labor can never be settled by organized capital and organized labor. If left to capital they would grind labor to the ground and to ruin. If left to organized labor they would hamper and dictate to capital until there would be nobody to invest capital in anything. The troubles must eventually be settled by the great conservative class of farmers of this country.

Let the state regulate the corporations.

The Grange interferes with no man's politics or religion.

Worthy Master Morton introduced Obadiah Gardner of Rockland, master of the State Grange and Mr. Gardner said, "I am reminded of what a certain captain said to his soldiers. He called his men up and said: 'We have got a long hard fight. We'll take hold of it the best we can. If we don't succeed, we'll retire in the best order possible,

away behind the other civilized countries in this matter. There are various reasons why we have not had the parcels post before. There are the American Express company, the Wells Fargo company, the United States Express company and the other three great express companies.

A reason particularly of the Grange. Four years ago in Ohio the question of the poor food law was introduced and carried in Ohio. Then the United States law followed. This is due to the efforts of the Grange.

I have been accused of slandering the state of Maine in the past year. Honest criticism does not hurt us. It is good for us. I never criticised any state officer, who is honestly enforcing any law. I never made the statement that the state of Maine is growing more drunks than ever. What I said was that under the lax enforcement I had observed I'd rather that a boy of mine should grow up where there are different conditions than I have observed in some parts of Maine.

Mr. Gardiner was followed by J. H. Blanchard of Auburn in a rattling speech for the good of the order. Mr. Blanchard had a good voice and made an excellent impression in a half hour speech.

The afternoon session opened with music by the choir. Then Worthy Master Morton introduced Hon. Bert M.

The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherrybark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and, through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

West Freeman.

Sunday, the 25th, was closing day of the Allen camp meeting at Strong and a most beautiful day it was. The rain of the night before had cleared the air and laid the dust and there was a large attendance.

Automobiles, double and single teams, bicycles and foot people passed through our street, all with their faces steadfastly set towards the Allen camp grounds and all who were present were well rewarded for their effort to get there.

Dr. Kelley of Washington, D. C., preached a most excellent sermon in the morning; at 1 p. m. Rev. Jesse F. Smith of Rangoon, Burma, addressed the large audience, being introduced by the Methodist pastor, Rev. Mr. Clifford, in such a happy manner that speaker and hearers were in sympathy from the start. He sketched rapidly the outline of the recent history and the geography of the country, described the people living in the different parts of the province, their manner of living, their religious beliefs, their social condition and their need of the religion of Jesus. Of the work of the missions supported by the different denominations and at the close of his remarks plead earnestly not only for men and money but for the love, sympathy and prayers of Christians at home. He said that one of the heaviest burdens that the Missionaries at the front had to bear was the feeling that they were forgotten by the churches at home.

After the close of the Missionary address Miss Adams preached a very plain practical sermon upon the exceeding sinfulness of sin and urged all who had not accepted Christ as their deliverer from sin to make the decision now. A children's meeting was held at the close of Miss Adams's sermon.

I will mail you free, to prove merit samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by all dealers.

Dysentery, Diarrhea and Cramps Cured by Simple Remedy.

At this season of the year, every home should have a bottle of Neuralgic Anodyne in the medicine-closet so that when anyone of the family is taken with diarrhea, dysentery, cramps or colic, this reliable remedy will be right at hand to give relief.

There is nothing else known that so quickly eases pain, and restores natural conditions to the stomach and bowels. A dose or two of Neuralgic Anodyne taken at the first symptoms will save days and weeks of suffering, perhaps even life itself.

The value of Neuralgic Anodyne is not limited to these summer complaints, for the remedy is invaluable for all aches and pains in cases of neuralgia, headache, rheumatism, toothache, bruises, sprains, cuts, etc.

A large bottle costs but 25c. and is sold by dealers everywhere with the understanding that the money will be refunded if the Anodyne does not do all that it claims to. Made by The Twitchell-Chapman Co., Portland, Me.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and relief to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

LETTER TO F. M. HAMMOND, Phillips, Maine.

Dear Sir: We should like to set your boys and girls at work on this question in arithmetic and causticity.

A farmer is fattening three hogs in three small pens; they have equal room and straw and care, and are fed in these three ways: first hog, on a certain proportion of milk and cooked cornmeal; second hog, on the same, half water; third hog, on the same, half water and sawdust. How long will it take, how much will they weigh, how much will they cost, and what'll the profit be on the three?

And a similar question in pigmentry. That same farmer is going to paint three barns same size; and he says to three painters: "What'll you take to paint that barn?"

First painter scratches his head a few minutes and says: "I'll do it for \$50."

Second painter: "\$75."

Third painter: "\$97.48."

Will they each get a barn to paint, or one get two, or one get all three, or nobody any; and what'll they make on the job?

That's about how painting goes sometimes.

But there is a way to reckon: \$5 a gallon. The difficulty is in knowing how many gallons to buy. There's a way out of that.

Buy the least-gallons paint, Devoe. No matter how much one buys; he returns what's left: costs nothing.

Yours truly

F. W. DEVOE & CO.

The Limit of Life

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by W. A. D. Cragin, Phillips; L. L. Mitchell, Kingfield; C. E. It is impossible to judge the International Clothes by the price. There is nothing about them that is similar to others—so comparison is out of place. They stand alone. Though popular priced they are far in advance of those that cost you double. The difference lies in the fact that the International Tailoring Co., of New York and Chicago have different methods and are able to render service of the highest order at a price that none can imitate.

Expression of Thanks From Reunion Committee.

The following is an expression of thanks to those who assisted the executive committee of the North Franklin and West Phillips reunion in 1907 and a few suggestions for the future.

We wish to extend our sincere thanks to those who so kindly assisted us at the reunion held Aug. 14, 1907 at the Reed school house in West Phillips. We wish we could mention each one by name but fearing we might miss some one we will do it somewhat collectively.

The leaders in Phillips furnished the coffee and sugar which was prepared by the ladies of West Phillips. The baked beans and milk was furnished by the people of West Phillips. One dollar was sent by Mrs. A. A. Blanchard to be spent for beans. We decided to place it with the secretary to start a fund to furnish seats, tables, etc., to be used in future years. The seats, tables, etc., were furnished by the people of West Phillips.

The reunion comes at a very busy season. If we had something for seats, tables and platforms which could be placed in position easily and quickly, it would be a great help.

We were sorry to be disappointed by the instrumental music that we expected. However that was got over very nicely by the help of Mr. Ether Smith and Mrs. Spaulding.

These reunions could be made more interesting if the committee could have a little money to work with.

trouble of eight or ten years' standing. I suffered the most severe backache and other pains in the region of the kidneys. These were especially severe when stooping to lift anything, and often I could hardly straighten my back. The aching was bad in the daytime, but just as bad at night, and I was always lame in the morning. I was bothered with rheumatic pains and dropsical swelling of the feet. The urinary passages were painful, and the secretions were discolored and so free that often I had to rise at night. I felt tired all day. Half a box served to relieve me, and three boxes effected a permanent cure."

A FREE TRIAL of this great kidney medicine which cured Mr. Justus will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

Some Points in Seed Sowing From Dill Brothers.

PHILLIPS, August 20, 1907.

To the Editor of MAINE WOODSMAN:

We noticed in your last week's paper under Farm Notes that some one was anxious to find out our method of raising grain.

Well, to make a long story short, the first thing to do is to get the ground in shape, which we do with some old plugs on a Syracuse sulky plow. After we get the grass roots burned bottom up we follow with a Clark's Double-action cutaway harrow and that your old plugs will get tired of, at any rate ours do especially if you use it ten hours a day for six days. We will guarantee they won't take much notice of an automobile on Sunday morning, but nevertheless that is the harrow that does the work by one, and you will say so.

After that we use about twenty tons of dressing to the acre, or one ton of fertilizer, if your pocketbook is thick enough use more, we should. When that is well harrowed in we start the seed sower and if oats are sowed even and your ground is just as rich in one place as in another they cannot help coming even.

One cannot scatter a rack of fertilizer out in a strip a rod wide then skip a rod and expect the same result, if he does he will get left. I refer to fertilizer as that was what we used on the field of grain referred to.

Then we harrow them in sometimes with the Disk but generally with a Spring-tooth. It depends on how much time you put in with the harrow mentioned first. By the time you have got that done put one peck dead grass and ten pounds of clover to the acre and follow with the roller and we don't think you will have any trouble in raising hay as well as oats.

Call again,
DILL BROTHERS.

Reminiscences After the Reunion.

[Written for MAINE WOODSMAN]

We met once more at the old schoolhouse

Where years ago we met,

And scenes of early days rehearsed,

That we never can forget.

We told of games we played in youth

And worldly things of later years

And thought we were telling all the truth

And memory started many a tear.

The fathers and mothers sleeping now

In their quiet resting place

On the lonely hilltop's peaceful brow,

On many a stone their names we trace

Of in the old schoolhouse they'd raise

Their song of love and prayer.

Their children too would join to praise

The God who placed them there.

And in those earlier happy years

Our hearts were light and free

Ere sorrow came with bitter tears

Our constant guest to be,

Some sons and daughters good and fair

Have wandered far away.

Have they forgotten mother's prayer,

Do they think of her today?

Does not their memory often turn

To the happy days of youth

And does their hearts not often yearn

For playmates, love and truth,

O, sons and daughters far away,

When time brings us another year,

O, don't forget reunion day

But come our hearts to cheer,

And don't forget the God who lives

Above the starry sky,

Who all our blessings to us gives

And guards with watchful eye,

We'd praise him while he gives us breath

Our father who is in heaven

He blesses us in life and death

To whom be glory given.
